

On-Project Services

Monad Solutions employs some of the most skilful and experienced Oracle Policy Automation (OPA) consultants in the world. **All Monad Solutions consultants are "OPA Implementation Specialists" certified by Oracle.**

The combination of skills that Monad consultants bring to our clients means that Monad can be engaged to supplement your project teams with OPA specialists or as an end-to-end solution provider to fulfil the business, functional and technical requirements throughout all phases of your OPA implementation project.

Business Rules Capture

Monad's team of OPA Rules Developers specialise in the elicitation of business rules from regulations, guidance and any form of written or unwritten knowledge using the Oracle Policy Modelling (OPM) environment.

Customisation and Integration

Monad's Software Developers specialise in the development of technical OPA components and their integration into your IT architecture using Java, .NET and / or Web Services technologies.

End-to-End Testing

Monad's Test Managers and Testers will help your organisation in the development and execution of test strategies for your OPA-powered applications.

About Us

Monad Solutions is the world's one-stop-shop for Oracle Policy Automation (OPA), and related Oracle technologies including Siebel CRM and RightNow CX.

We provide OPA licences, training, consulting, implementation and pre-built solutions to a growing number of customers around the world, and partner with system integrators to provide deep expertise to large IT implementation projects.

Business Analysis

Monad's Business Analysts are proficient in the creation of business and system requirements catalogues and Agile user stories for your OPA powered IT system, including workflows, storyboards, wireframes, functional requirements and specification of your reporting and document generation.

Technical Architecture and Design

Monad's OPA Technical Architects will take responsibility for specifying the technical integration layer, data interfaces and the rules service catalogue.

Project Management

Monad's Project Managers are experts in the delivery of OPA-powered software projects using standard industry-best-practice or Monad's own Agile SCRUM for OPA methodology.
